ADA, OKLAHOMA, TUESDAY, JUNE 28, 1921

FIVE CENTS THE COPY

70 ADA VETERANS FILE CLAIMS HERE

Gassed Men Seek Red Cross
When They Break Down
Under Strain

Few people realize the extent of aid the government is extending to disabled and injured former service men, according to Mrs. Orville Snead, in charge of Red Cross relief work in the county. Many of these men already have been cared for through this organization and more applications are coming in daily. Over 70 claims were filed last month and Mrs. Snead believes that many more will be brought up this month.

Of these claims for aid most are from men who were gassed and who are now breaking down from its effects. It is said. Tuberculosis is the most common result. It is feared that it will become very prevalent among those whose condition was weakened during army service. Several have been sent from this county to the sanitariums provided by the government and Mrs. Snead believes many more will yet be forced to go.

Relief work consists of sending in claims for compensation and aid. Mrs. Snead estimates that between \$10,000 and \$15,000 copies into this county alone every month from these claims. This amount is distributed to those who are partly disabled and cannot fully support themselves; the permanently disabled, of whom there is a large number, and parents whose sons died in the service.

According to Mrs. Snead, some do not apply for aid because they fear that there will be too much red tape. However, the relief organization takes care of whatever formalities may be necessary and the applicant is put to no effort at all. She hopes that those who are entitled to aid and have not applied for it will report.

WHEAT PRICES IN BIG DROPS TODAY

(By the Associated Press)
CHICAGO, June 28.—A severe break in the prices of wheat took place today, some places showing a loss as high as 9 cents a bushel as compared with yesterday's finish. Free selling on the part of country holders is largely responsible.

Kansas City Shows Drop
KANSAS CITY, June 28.—July wheat futures dropped 10 1/4 cents at the close of the market here today and September declined 6 3/8 cents. It is expected that heavy receipts will be ascribed as the reason. July closed at \$1.08 1/4 and September at 1.09 1/4.

Down at Minneapolis
(By the Associated Press)
MINNEAPOLIS, June 28.—Wheat today broke more than 9 cents a bushel here, with an extra drop of 9 1/2 cents on July and 8 1/2 on September from yesterday's closing prices.

Elevator Strikes Feared
(By the Associated Press)
CHICAGO, June 28.—Unpromising economic conditions including the possibility of railroad and elevator strikes added considerably to the break in wheat prices and tended to curtail the demand.

It was also pointed out that the harvest of early winter wheat had an unusually early start this season and that the hedging of new wheat found the market with the usual volume supplied from export and speculative sources.

FOGS DELAY AIRSHIPS IN SINKING FLIGHTS

(By the Associated Press)
WASHINGTON, June 28.—Fog off the Virginia Capes delayed today the carrying out of the proposed attack by seaplanes on the radio controlled battleship Iowa. A telephone report received by the navy department from the commandant of the Hampton Roads naval base, said that none of the planes had left there at noon, but that all were held in readiness to top off and that the attack had not been postponed for the day.

OLD POINT COMFORT, June 28.—Heavy fogs outside the Virginia Capes delayed today the departure of army and navy seaplanes from the Hampton Roads naval base and Langley field in their attempt to locate and theoretically sink the radio controlled battleship Iowa. The Iowa is somewhere off the capes completely obscured by the fog, according to radio advices to the air station.

Germany Fills Obligation
WASHINGTON, June 28.—Germany has fulfilled her obligations to replace the railroad material taken by armed forces during the war, according to advices received here today in official circles.

STATE'S RECORD LEASE NOW OPEN

Commissioner Takes Bids
on 104 Tracts for Oil
Rights.

(By the Associated Press)
OKLAHOMA CITY, June 28.—Sealed bids on 104 tracts of public state and school lands in 12 counties of the state for oil and gas leases, will be opened by the commissioner of the land office at 2 p. m., July 12, according to notices being mailed out here today by A. S. J. Shaw, secretary.

Tracts in Caddo, Comanche, Cotton, Garfield, Grant, Kaw, Lincoln, Logan, Muskogee, Noble, Pawnee, and Stephens counties will be subject to bid at that time. According to Mr. Shaw this is the largest and most vital leasing of state lands for oil that has ever been made by the state, due to the fact that it is the renewal time of the old 5-year leases. This year, however, the sale will be conducted on a commercial basis, the secretary announced.

Twenty tracts are offered for sale in Caddo county; 13 in Comanche county; 10 in Cotton county; 24 in Garfield county; 8 in Grant county; 4 in Kay county; 2 in Lincoln county; 2 in Logan; 1 in Muskogee; 8 in Noble; 8 in Pawnee, and 1 in Stephens county. The tracts to be leased in some of these counties are very close to production, some are producing while others are directly in producing territory territory, according to Mr. Shaw.

Any bidder other than the owner of the preference right to release any tract shall deposit with the commissioner the appraised value of the improvements and equipment on such tract in cash or certified check. Bids will be received separately and each leased separately for a royalty of one-eighth of the oil and gas produced thereon.

The lands will be leased for a period of 5 years and as long thereafter as oil or gas may be produced therefrom in paying quantities. If no well is completed upon any tract so leased within one year from the date of lease the lessee shall pay an annual rental of \$1 per acre, in advance.

CAST NOW READY FOR ELK SHOW WEDNESDAY

Familiar faces will appear under burnt cork at the Elks' Minstrel in the Normal auditorium tomorrow night, according to final preliminary statements issued today by Harry Ennis, director.

"Everything points to a grand success. One rehearsal more and the citizens of Ada will have the one chance to see a real live picture-quest minstrel and musical comedy," the director said. The play and characters have been summarized as follows:

"Mayo McKeown and Alice McLacklan, the foot-light artists promise to give those who come something that they never saw before. G. W. Braly will sing a song. And if you think he can't sing, well you don't know. J. T. Roff, some people call him Tom, and some call him Mr. Armour, is having his tightens enlarged and a new skirt made for the show. Tom also sings. His voice is very strong. The other evening while rehearsing at home Tom created quite an excitement by singing a song composed by himself entitled 'If Hogs Were Airships Pork Would Be High.' He had gotten to the chorus when all the neighbors ran out of their houses. They thought it was a siren whistle.

"Manager J. C. Gowing is working up a clog dance. He is putting wooden soles on his shoes. Sam Huser is doing a trapeze and horizontal bar act. He isn't up in it as well as he used to be owing to the fact that the bar act is not as popular as it was."

More than 800 tickets have been sold already, it is reported. The curtain will go up at 8:15.

Roosevelt's Chief Attorney Is Dead at Country Place

(By the Associated Press)
BALTIMORE, Md., June 28.—Charles J. Bonaparte, attorney-general during the Roosevelt administration, died at "Belle Vista," his country home near here, today.

Mr. Bonaparte had been in poor health for about a year, suffering from a heart affection, later complicated with kidney trouble. He was 70 years old. His widow, who has been an invalid for many years, survives him.

Boy Drowned at Tulsa
TULSA, June 28.—Hurt Clemens, 16 years old, drowned in Owen park about nine this morning while two boy companions looked on, unable to render him assistance.

ATTEMPT ON FOOT TO FORBID FIGHT

Clergymen Go to Chancery
Court to Stop Battle
Saturday.

JERSEY CITY, N. J., June 28.—Robert Watson, an officer of the international reform bureau, accompanied by five Jersey City clergymen, appeared today in chancery court in an effort to block the Dempsey-Carpentier fight next Saturday.

The delegation applied for an order for Promoter Tex Rickard to show cause why an injunction restraining the bout should not be issued.

A decision is expected this afternoon. Meanwhile Mayor Hague is conferring with the heads of the fire and police departments and Rickard concerning the protection of those who will turn out for the bout.

Seven hundred police will form a wall extending four blocks beyond the rim of the octagonal arena and nobody without a fight ticket will be allowed to pass. Four hundred additional police and 300 firemen are to be posted within the arena.

Rickard offered to reimburse the city up to \$25,000 for expenses in apprehending and prosecuting persons reported to be scattered suspicious tickets over the country, Mayor Hague said.

Refuses to Act on Plea.
JERSEY CITY, June 28.—Vice Chancellor Stevenson today declined to act on the motion by the International Reform Bureau for an order directing promoter Tex Rickard to show cause why he should not be stopped from staging the Dempsey-Carpentier bout in this city Saturday.

Mr. Stevenson, however, gave the representatives of the bureau permission to apply to another vice chancellor for such an order and the clergymen departed to look one up. Mr. Stevenson explained that he was leaving town late today and could not hear the argument.

Pastor Pens Poem As Summer Styles Get Higher Daily

(By the Associated Press)
NEW YORK, June 28.—The scant summer styles as exhibited in these parts, have inspired the Rev. Dr. John Roach Stratton, pastor of the Calvary Baptist Church to "pen a poem" which is going through its second edition in the public print today. The poem is as follows:

"Mary had a little skirt,
The latest style, no doubt;
But every time she got inside
She was more than halfway out."

In a prose foreword delivered from his pulpit Sunday night, Dr. Stratton declared that he did not advocate a return to the old street sweeping styles.

"There are styles for women's dresses in harmony with the laws of sanitation as well as the principles of modesty," he said.

Movie Trusts Said to Rule Half Film Business of Today

(By the Associated Press)
MINNEAPOLIS, Minn., June 28.—Delegates of motion picture theaters in America in annual convention today considered ratifying a plan adopted by its executive council last night for the formation of a co-operative distributing organization among independent moving picture interests to combat the big film producers said to be buying theaters all over the country to exhibit their films.

The plan would raise \$2,000,000 from every owner and every independent producer in the country.

Charges were made at the convention that a "movie trust" controls 50 per cent of the moving picture business industry.

MARTIAL LAW ORDERED
FOR MINGO COUNTY
(By the Associated Press)
CHARLESTON, W. Va., June 28.—Governor Edwin Frank Morgan, by proclamation here today reaffirmed his declaration of martial law in Mingo county and commanded that all persons there liable under law to military duty be enrolled. He also ordered the sheriff to draft 130 men, or accept 130 volunteers who are to be mustered into the service of the state for 60 days, to enforce all orders promulgated by the governor.

BEER BILL PROHIBITS
"STIMULANTS" TO SICK
WASHINGTON, June 28.—Passed by a vote of 250 to 93 in the house, the Willis Campbell beer bill is in the hands of the senate today with indications pointing to its adoption there before the end of the week. The bill prohibits the sale of beer to the sick and carries also amendments to the Volstead act intended to limit to the sickly the use of stronger beverages as medicine.

OWNERS IMPROVE BY GRAVEL PLAN

Title Holders Start Work
Grading Block on East
-- Fifteenth.

Property owners of the block between Rennie and Broadway, on East Fifteenth street are taking matters in their own hands and have let a contract to J. T. Martin for the grading of the block. The necessary funds have been subscribed by ten of the property owners on this street.

Work was started yesterday on the grading of the street and putting it in condition for the gravel. Funds for the work have been subscribed and are in the bank and the work will be pushed until completed. The contract calls for a 6-inch layer of gravel, wet and rolled, 60 feet wide for the entire length of the block. It is believed that this will make the street passable during the most muddy of the bad weather periods.

Mr. Martin expects to get the work completed in the near future as he has sixteen teams and wagons and other equipment necessary already here. Those who are boosting the movement are optimistic as to its success and believe that other districts of the city will take up the work.

Property owners who contributed to the work are B. Schlenberg, H. P. Rich, J. C. Hynds, Mrs. Webb, J. T. Braly, C. H. Rives, R. E. Haynes, Episcopal church, E. K. Higgins and L. A. Bruch.

COURT GIVES WALTON BACK POLICE POWERS

OKLAHOMA CITY, June 28.—The state supreme court today restored to Mayor Walton the control of the Oklahoma City police department, taken from him some time ago by action of the city council. Suit brought by the mayor in the district court to regain the department was decided against him, after which he appealed. The high court today reversed the decision of the lower court and remanded the case for further action.

Control of the police department had constituted one of the bitterest political conflicts recently in Oklahoma City. At the city election in April candidates pledged to oppose the mayor were selected. Immediately thereafter the city council voted unanimously to deprive the mayor of the department. Action was taken pursuant to a clause in the city charter interpreted as giving such authority to any four members of the council. This interpretation was upheld by the district court but reversed by the supreme court.

Asher Nine Victor Over Sulphur Club in 11-round Game

Asher's ball club defeated Sulphur yesterday at Sulphur in an exciting 11-inning game 4 to 2. Lefty Waner, pitching for Asher, struck out 19 men. His brother, Ralph Waner, who plays short stop for Ada, caught. The score was tied in the ninth but Lefty Waner hit one over the score board for three bases, scoring R. Waner.

The Asher club, which was defeated at the hands of the Ada club some time ago, will play here again Thursday afternoon. The game will be called at 4 p. m.

SOCIALIST CONVENTION SLAMS MILITARY BILLS

(By the Associated Press)
DETROIT, Mich., June 28.—Resolutions relating to party politics were considered in a session of heated debate by the socialist national convention here today. They included proposals to bar from the party any person holding membership in any chamber of commerce and instructing socialist congressmen that they should not vote for military or naval appropriations.

CALL MASS MEETING ON STREETS TONIGHT

Attention of all property owners is called to the fact that a meeting of those interested in graveling the streets will be held at the court house tonight at 8:00 o'clock. W. S. Smith, street commissioner, will have charge and other leading men of the city will be present to help in explaining of his plan.

It is reported that definite steps will be taken at the meeting and those interested have been urged to be present. A chance will be given those present to express themselves and offer suggestions. It is planned.

PLANS TO CLEAN SUNDAY STREETS

Smith Works on Details of
Scheme to Eliminate
Week-end Trash.

Details of a plan by which he hopes to improve the appearance of Ada streets on Sunday morning after stores of the city have closed on Saturday and done their weekly "house cleaning" are being figured out by W. S. Smith, street commissioner.

Even main streets of the city are littered with paper and trash on Sunday morning and the beauty of the city is marred for the day because of a mere oversight on the part of the merchants and property owners who sweep trash from their places of business late Saturday night after street sweepers have passed, Mr. Smith said.

"I realize it is not the fault of merchants. Neither is it the fault of the city. But if we work together to formulate a plan I am sure the city's appearance will be changed immensely on Sunday mornings," the commissioner said in discussing the situation.

"Some time ago, before I came into office as street commissioner, there was a plan afoot to remedy this oversight which results in considerable embarrassment to the city," Smith continued, "but for some reason there was nothing that suggested itself. Although I am not yet ready with a plan, I hope to have something constructive to suggest in the near future and am convinced that merchants and others in the city will be more than glad to co-operate with me," he said.

Street sweepers are handicapped in their work by the crowded streets Saturday night, the commissioner pointed out. Workers start their cleaning on Twelfth street about 10 o'clock Saturday night and sweep the main section of the city as rapidly as streets are cleared of week-end traffic. By 10:30 or 11 o'clock they are working on Main street and pass over much of this before some of the business houses dispose of their trash, it was explained. It is for this reason that Sunday morning finds the heart of the city looking like it was unswept, Mr. Smith said.

Muzon to Preach Baccalaureate at Normal on July 17

Bishop E. D. Muzon of the M. E. church, South, has been secured by the Normal school to preach the baccalaureate sermon for the graduation class at the close of the summer term, according to an official announcement. He will preach the sermon in the Normal auditorium Sunday, July 17 at 10 a. m. He is said to be one of the most eloquent speakers in the southwest and well adapted for this work.

Dr. W. A. Branderberg of the Pittsburg, Kansas, state normal, will deliver the commencement address for the class on July 21 at 10 a. m. He has the distinction of being president of the largest Normal in the United States.

At this time six degrees will be given and about 25 life diplomas and 15 high school diplomas will be awarded. This number compared with graduates of other summer terms shows that the average is good. The closing exercises for graduates will be held July 21.

Report That Craft Refused Wage Cut Untrue Says Jewel

(By the Associated Press)
CHICAGO, June 28.—Reports of an overwhelming vote for the rejection of the average 8 per cent wage reduction recently ordered for railroad shop employees by the United States labor board was branded as "misleading and unreliable" by Mr. Jewel, head of the shop craft organization. Only about two-thirds of the votes have been counted, according to Mr. Jewel, who added that "a few votes might swing it either way."

The ballots are coming in by every mail and they have not begun to complete the tabulation. The result at this time is unknown, Mr. Jewel said.

PENNSYLVANIA CRUDE PRICES ARE SLASHED

(By the Associated Press)
PITTSBURGH, June 28.—Crude oil prices suffered a further reduction here today when the principal purchasing agencies announced a cut of 25 cents a barrel in Pennsylvania crude, making a new price of \$2.25.

Conference Proposal Accepted (By the Associated Press)

BELFAST, June 28.—Sir James Craig, Ulster premier, announced today that the Ulster cabinet had accepted the invitation of Premier Lloyd George for the proposed conference between representatives of north and south Ireland and the British premier.

BOOSTERS CHOIR SINGS FOR MEET

75 Children Take Platform
in Baptist Revival
Monday Night.

The singing and performing of 75 members of the children's "Booster" choir, which replaced regular singers on the platform was a feature of last night's service at the Baptist revival as it opened its second week at the First Baptist church.

Under the direction of E. Otis Allen, who is leading singing for the revival, "Boosters" sang "Everybody Ought to Love Jesus" and "Can the Lord Depend on You?" They will take the platform again Thursday night.

This morning, members of the revival party consisting of Dr. J. M. Dawson, who is doing the preaching for the meeting, Rev. C. C. Morris, pastor of the local church, and E. Otis Allen, singer, conducted a special service at East Central Normal at 10 o'clock. Mrs. Dawson filled the pulpit at the Baptist church at the same time.

Taking as his topic, "Set Thine House in Order," Dr. Dawson made a powerful appeal last night for a more genuine and whole-hearted Christianity. "The best thing about any house is its order," he said, "and whether it be a business house, a dwelling house, or a church house it is no better than the neatness with which its affairs are kept."

Genius and super-ability are not required for success if the individual has a well ordered house, the speaker pointed out in a series of illustrations. "If anything discredits the Master it is a disorderly church. The Holy Spirit will not dwell in a disorderly house. God can use the one-talent man if his spiritual house is arranged as it should be. He took Dwight L. Moody, a stammering, ignorant country boy and turned him into a force that moved two continents. One out of every 35 verses in the New Testament deals explicitly with the second coming of Christ. Set thine house in order for thou shalt die and not live."

Tonight, Dr. Dawson's subject will be "The Cheapest Thing on Earth."

OFFICERS PREPARE TO OPEN NEW YEAR

County offices started this week on their annual job of clearing business and completing their reports in preparation for the opening of the next fiscal year July 1.

Clerks assisting county officers worked yesterday and are still at the task of putting the final touches on records for the old year.

County Judge Tal Crawford is getting his machinery in order for the opening of the annual July term of the county court July 11 when he expects to start on one of the heaviest legal grinds of criminal and civil cases, that has faced the county for several years. L. E. Franklin, county court clerk, has completed making up the county court docket and is winding up unfinished business for the year.

County Attorney Wayne Wadlington has been in Oklahoma City on county legal business recently and probably will have to attend the U. S. district court which is now in session at Muskogee. Assistant County Attorney H. T. Mathis will close up records for the year and prepare for opening the new period Friday.

Strike of British Mine Workers Now Reported Settled

(By the Associated Press)
LONDON, June 28.—The British coal miners strike, which has been in progress since April 1, has been settled, it was officially announced yesterday afternoon.

It is understood that Mr. Lloyd George, the premier, will ask parliament this afternoon to authorize the grant of a 10,000,000 pound subsidy to the mining industry. The miners will resume work generally next Monday if the subsidy is granted. The government offered the subsidy several weeks ago, but withdrew it.

New Republicans Call Meeting to Speed Up Solans

(By the Associated Press)
WASHINGTON, June 28.—Representative Ansonge of New York issued a statement today asserting that new republican members of the house were dissatisfied with the progress made by congress at the special session, disclosing that he and ten others had joined in a call for a conference tomorrow night of approximately 100 new republican members to discuss the situation.

"We are not meeting in any spirit of revolt," said Ansonge, adding that the new members want to cut some of the red tape and substitute action for delay.

DEMPSEY GOES IN TO LAST WORKOUT

Champion Refuses to Rest
a Day as Time Is Growing Short.

(By the Associated Press)
ATLANTIC CITY, N. J., June 28.—Jack Dempsey is today within 48 hours from the end of his training grind. The champion is scheduled to do his last boxing in public this afternoon and tomorrow. After the secret workout with heavy weights yesterday, he will probably box with lighter men in camp in the two final sessions with the gloves.

The champion and his handlers had no explanation to offer today for the secret workout late yesterday afternoon when he toiled 55 minutes at top speed with only two spectators watching him. He worked out in the stuffy old hangar a quarter of a mile back of the camp after the announcement was made that he would take the day off. He successfully evaded the newspaper men, throwing them off the scent by having it announced that the champion had left the camp with his two dogs to have the same shear. Two correspondents, however, managed to get by the guarded gate along with Battling Nelson, former lightweight champion.

"Jack simply felt that he wanted to work out and decided to do it on a minute's notice," said Teddy Hayes, trainer of the champion.

"We thought he was going to loaf all day, but after a nap he ordered his sparring partners into their clothes and went after them."

COUNTY SCHOOLS RUN EIGHT MONTH TERMS

Ninety percent of rural schools of the county will run 8-month terms next year, many of them jumping from 6 and 7 month terms last year, it was shown today in a statement given out by A. Floyd, county superintendent. Last year the average term for schools of Pontotoc county was 7 1/2 months. Eight school years of 8 months each are required by a State Board of Education ruling for completing the grammar grades, Mr. Floyd showed. This requirement has induced many districts to adopt 8 months and many of them have gone to 9 month terms in the last year, according to the report.

"I am convinced and am trying to convince school boards over the county that it is poor economy to run short terms and duplicate the work next year for pupils who fail to make their grade in the limited time," Mr. Floyd said. "No average country school can complete its course of study as outlined by the state board in 6 months. They waste money by going over the term—the second time."

Forty-five schools of the county are running summer terms, it is estimated. This is to enable children of rural families to be out of school during the cotton picking season which opens about October 1 or 15. By running a two or three month summer term, the rural district can delay starting their winter terms until about December 1 when the bulk of the cotton picking season is over, it is understood. At the same time this plan enables teachers of country schools to get more work at the local Normal.

Entered at the postoffice at Ada, Oklahoma, as second class mail matter

Telephones: Business Office, 4. Editorial Dept., 307

How long will it be before Lloyd George, too, will be relegated to the background? All the other great war leaders have been sidetracked.

The trouble with most nations which urge disarmament is that they have not finished building all the battleships they want. Longitude, latitude and platitude are their platform.

GOOD WORK

The News wants to commend those citizens on East Fifteenth street, who are paying to have the street in front of their homes graveled. We understand that the contractor is doing the work unusually cheap, and this should be the beginning of much work of the kind.

Ada is the best town in Oklahoma in which to live. It has every advantage of a city, with one exception, and it has the juxtaposition to the farm and brooks that makes living more pleasant. The one exception is bad streets. We have less paving, probably, than any town the size in the state. The streets in rainy weather resemble the holes the Arkansas hogs used to make in the forests of their native runways. We cannot expect to grow and prosper as the city should without better streets.

Paving has been too expensive in the last three or four years. Paving is still expensive, and it may be a year or more before it gets back to the place where the citizens will feel like beginning construction on a giant scale. Meanwhile the graveled streets may prove the long sought for goal.

The improved stretch of street on East Fifteenth will be watched with interest. Other sections of the city will likely follow.

WHEN A MAN HAS A JOB AND WORKS AT IT

No one need be afraid of a man who has a job and works at it. He is a good, safe and sane citizen. It is because of the truth of this statement that the Southwest need not cause any other section of the country to worry about it. The leading industries of the Southwest are agriculture and livestock and farmers make up a goodly portion of our population. These citizens all have jobs and they are not neglecting them. That is the reason that the Southwest will be the first to recover from deflation ills and be riding the waves of prosperity by early fall. As a matter of fact, the income from the many sources of revenue in the diversified Southwest has already paid hundreds of thousands of dollars of debts and will continue to pay debts and buy necessities until the major crops are marketed.

The crops of the Southwest are being produced at less cost per acre than for many years past. Farmers are no longer spending their time bossing high priced labor and hauling them back and forth from town. Farmers are working and doing better work than any hired hand they ever paid good money to. As a result the fields are cleaner and there will be raised more per acre of better quality than the average. Steady, intelligent work has pulled the Southwest out of the trough of despondency, and the same kind of work is going to make it possible for our producers to register another profitable year.—Farm and Ranch.

CLIMAX OF PICTURE IS SEARCH FOR BONDS

It is generally true that every man has his price, but sometimes it happens that the price of happiness is cold cash. This is the case with Billy Jenks, the hero in "Coincidence," the Metro special production, which comes to the McSwain Theater today as the feature attraction.

Billy has just received a legacy of \$100,000 in bonds, but being unaccustomed to money, he puts the bonds in his pocket, and in his excitement, produces them while telephoning to his lady love. Of course such an opportunity is not overlooked by the lightfingered gentry, one of whom cleverly gets the envelope and escapes. The chase is a desperate one, for the boy's future in luxury and marriage depends on recovering the bonds. Before he gets the bonds, Billy finds himself on the siddy tops of high buildings, and up and down sooty chimneys.

Dr. Warner, D. O., the eyesight specialist, will visit Ada every third week; office with Peoples Drug store, 215 East Main street. Have your eyes examined and proper glasses fitted. No extra charge for residence calls. Phone 662 for appointments and date of next visit. 6-22-1mo.

FINE EATS

Regular meals every day at the American 45c. Vegetable dinner 35c.

AMERICAN CAFE

Look in a Mirror

Are there any lines between your eyes? If so, ask yourself the question, "Why?"

Many people have a constant scowl caused solely by eyestrain. This is often so disgusting that it doesn't matter how attractive the person otherwise appears—the scowl spoils it all.

In most cases scowls can be "smoothed" out by relieving the eyestrain.

If you have any symptoms of eyestrain you should let us examine your eyes at once. Don't wait until ugly lines appear between the eyes.

COON

The Evening News Press

Comments given below do not of necessity reflect the opinion of the News. In fact, oftentimes the opinion expressed is directly opposite to that held by the News. The opinions are given, however, because this is a newspaper.

The Vanishing Millions.

Grand Rapids Press: Just now it seems as if everybody who made a big money clean-up out of the war has lost or is losing it. The way in which war fortunes are slipping away is strangely similar to the April first wallet with a string attached, jerked away by a mischievous boy just as we reach down to pick it up.

A leather company's annual statement shows that its 1920 deficit wiped out profits accumulated in the last seven years. So with many other corporations. Paper profits vanished as the country returned to hard pan.

It is the same with individuals. Any day it is possible to point out an individual on the streets as "one of the busted." He made a big stake during the war and just after but it's all gone now.

What has become of these near profits, or rather who will be the eventual holder when deflation and readjustment have run their course? Wise business men say that the government, through taxes, gradually will get back the floating war profits. But the government must spend money to retire its war debts.

Barring the great fortunes that were salted securely, most of the war profits in the long run will filter back to the public from which they came. It may take some time for the last of them but the old adage, "shirtsleeves to shirtsleeves in three generations," still holds good.

Cowardice; Failure, Courage; Success.

Forbes Magazine: If you study the careers of the most successful business and financial men in America has ever produced, one thought impressed on your mind very strongly will be this: Success in nearly all cases was won through the exercise of greater courage than possessed by the average individual. Hardly one man who has risen to the top did not at one stage or another encounter some obstacle which would have caused a person of only ordinary grit to give up. Supreme tests came, for illustration, to George Eastman, H. C. Frick, Charles M. Schwab, John H. Patterson, Frank W. Woolworth, Robert Dollar, William Wrigley, Edward L. Doheny, Edgar L. Marston, Thomas A. Edison, W. C. Durant, Henry Ford, the original Cyrus H. McCormick, Stephen Girard, Andrew Carnegie, Theodore N. Vail, August Heckscher, Minor C. Keith.

It is proverbial that the greatest fortunes that have been made in Wall street were made by men who had the courage to buy heavily when everything was so demoralized that stocks and bonds were going a-begging.

If truth could be revealed, it would probably be found that they are daring men of affairs purchasing securities in large volume at this time, and also making extensive purchases of commodities and raw materials now selling below cost of production.

It was the intrepid Theodore N. Vail who drummed into his associates, "The way to meet trouble is to face it." Conditions today call for courage. Courage is very different from the blind optimism which led so many business men to overspeculate when the boom was at its height. That situation called for caution and conservatism. The richest rewards will be reaped by those who exercise courage.

News from Allen

T. Y. McCormick and Hank Reid were in Oklahoma City this week on business.

R. M. Evans and John Pusley of Gerty were transacting business in Allen Monday.

POWER FARMING SHOW WILL FEATURE TESTS

FARGO, N. D., June 28.—Nearly every device known in power farming will be on exhibit at the national tractor show which begins here tomorrow and closes June 30. Trucks are making the run from towns throughout the middle west, to Fargo, loaded to capacity to show what they can do as freight carriers. Road making machines—diggers, graders and rollers—will bail a mile of road through the prairie. Various accessories will be exhibited. Even horses will take a part in the show.

Manufacturers from many of the large cities of the United States and from as far away as Paris, France, will be represented.

An attendance of 50,000 is expected for the three days, according to E. E. Whaley, Springfield, Ohio, manager of the show, which is under auspices of the National Implement and Vehicle association. He says indications are that it will be one of the largest in the history of the tractor industry. A tract of nearly a thousand acres, near Fargo will be used as demonstration ground.

Among the farm power machines to be shown are plows, threshers, clover hullers, silo fillers, corn shellers, corn huskers, corn grinders, hay balers, feed grinders, fanning mills, grain and corn binders, silo cutters and fillers, mowing machines and potato diggers.

Part of the tract to be used for the show has on it crops of hay corn and potatoes on which the mowers and cultivators will operate.

One of the features of the show will be tests in which all tractors entered must plow, prepare and seed ten acres of ground. Observers will note all items of cost in connection with operation of every machine as well as the quality of the work. From this data a committee will later compute average performance figures.

More than \$1,000 in prizes are offered for horse outfits to do the same kind of work. Data on these will be kept just as on the tractors and tractor men believe they will be able to prove the efficiency and economy of the tractor as compared with the horse. No prizes are offered for tractors.

Free Tables Spread for All Comers at Unique Hotel Here

Just think of a place where meals are served free, two to three hotel spreads each day, and the food brought to your room at that.

This is exactly what is being done and what has been done at one of the most popular hostels in the city. It is "The Hotel de Goetcheer."

During the past year Proprietor Goetcheer, chief of the local police force, has handed out feeds more than 215 times. Some of his guests stay only a short time, while others remain several days. This is generally the case in most of the public stopping places in city halls of the state.

At present, meals are being prepared for "guests" at the "Hotel de Goetcheer" by the hash man of the Byrd hotel. The meals are as good as those who pay well for them and are served on perfectly good hotel dishes. Few prisoners, are wont to break up the dishes, furniture and

other fixtures though "guests" of this caliber come occasionally, the chief reports.

The "hotel" budget last year was set at \$513 but \$100 of this amount was used by the sanitary department. Of the amount remaining, every dollar will have been used at the close of the month. It is believed. Prices paid by the city for the meals range, from 40 to 50 cents "Guests" who are compelled to work for a living are fed three times a day while those of more "leisure" are given only two.

Mayor Kitchens has asked for a budget of \$600 for the feeding of prisoners next year, the increase being necessary, he said, to meet the greater demand caused by an ever increasing number of "guests." It will not be known until after the first of next month what amount will be set aside for the use of furnishing "free" feeds.

Chief Goetcheer says that running a jail house hotel isn't like running a summer resort in the Ozarks, but it has its advantages. For example he has no dishes to wash,

does not have to furnish the guests with a key to his room, and there are also many other advantages over the modern hotels.

DON'T DESPAIR

If you are troubled with pains or aches; feel tired; have headache, indigestion, insomnia; painful passage of urine, you will find relief by regularly taking

GOLD MEDAL HAMLET OIL CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles and National Remedy of Holland since 1888. Three sizes, all druggists. Guaranteed. Look for the name Gold Medal on every box and accept no imitation.

I ought to know I grow tobacco

You can't beat a Camel, because you can't beat the tobacco that goes into Camels.

That's why Camels are the choice of men who know and love fine tobacco. They know what makes Camels so smooth, so fragrant and mellow-mild.

They'll tell you that the expert Camel blend of choice Turkish and Domestic tobaccos makes a cigarette smoke you can't equal—no matter what you pay.

But it doesn't take an expert to tell Camel quality. You'll spot it the very first puff. Try Camels yourself.

QUICK RELIEF FROM DREADFUL CHILLS AND FEVER

Leading Doctors Are Prescribing Swamp Chill Tonic

Here's good news for the afflicted—good news for the sufferers from malaria who haven't yet tried this wonderful old remedy—Swamp Chill and Fever Tonic.

Ask your neighbors about it; everybody who has tried it will talk to you in words of praise. Then go to your dealer and get a bottle—follow the simple directions—and in not more than three days you'll entirely rid yourself of all the misery of shivering, shaking, and burning with fever.

Swamp Chill Tonic is absolutely reliable. It is tasteless and easy to take. It contains no calomel. It is made of purely vegetable ingredients and iron—exactly the right combination for the effective relief of malaria, chills, ague, fever, colds, grippe, "flu," etc.

All dealers recommend and sell Swamp Chill Tonic. 60 cents a bottle. Try one. D294

IN SOCIETY

Faculty Entertains.
What promises to be one of the best informal social affairs of the summer Normal is the entertainment being planned by the resident faculty members in honor of the special instructors.

The event will be held in the gym beginning at 8 p. m. A live committee has been appointed to look after the arrangements and they report that everything will be in readiness this afternoon. Members of the faculty for the summer have expressed themselves as being highly pleased with the efforts that are being put forth by the regular faculty to make their work here more enjoyable.

C. P. Penrose has returned from Elk City where he was called on account of the illness of his father. His father is much better, he reports, and indications are that he will improve.

Mrs. Clovis Cummings of Oklahoma City is in the city for a visit with Dr. and Mrs. Cummings.

Miss Minnie Criswell left on the afternoon Katy for Oklahoma City where she will spend a week visiting friends.

Mr. and Mrs. Buford Baggett of Dallas are expected to arrive in the city today for a visit with Mr. and Mrs. C. D. Price. Mr. Baggett is a representative of the Avery Machinery company and is in the district delivering two threshers at Hickory.

Elmer Breckenridge of Okmulgee who has been visiting in the B. F. McCauley home for the past few days, returned home today.

Mrs. C. W. Chisler of Galveston, Texas, arrived yesterday and will be the guest of Mrs. M. B. Clark and Mrs. C. H. McKellar of this city for several days.

Miss Bernice Callis, of Anadarko, left yesterday afternoon for her home after spending several days here visiting relatives and friends.

Mrs. E. L. Kroth, who for the past week has been visiting her sister, Mrs. George Fairchild in Muskogee, returned to her home here this morning.

GOVERNMENT TO GET \$400,000 FROM BOUT

(By the Associated Press)
WASHINGTON, June 28.—How Uncle Sam will come by the lion's share of the gate receipts of the Dempsey-Carpentier fight at Jersey City Saturday was explained in a formal statement issued today by the bureau of internal revenue. The estimate of the total to be received by the government was \$400,000.

MAY START OVERALLS FACTORY AT GRANITE

OKLAHOMA CITY, Okla., June 25.—George F. Clark, chairman of the state board of affairs; H. V. Bird, member of the board, and Dr. George A. Waters, head of the state reformatory at Granite, are on a month's tour of penal institutions in eight middle-western states inspecting plants with the view of installing an overall or dress plant at the Granite school.

Penitentiaries and reformatories in Missouri, Illinois, Indiana, Michigan, Wisconsin, Tennessee, Kentucky and Arkansas are on the inspectors' itinerary. Arrangements were made before the party left Oklahoma City with officials in the various states to meet the inspectors and conduct them through these institutions.

"The enrollment at the Granite institution has increased to such an extent that we are compelled to install some kind of a plant which will afford occupation for the inmates," George Clark, chairman, said in commenting on the necessity of putting in such a plant. "There are many men at the school who have practically nothing to do because all of the available occupations are filled."

It has not been decided, according to Mr. Clark, just what kind of an institution will be installed at the reformatory. The plants to be visited are nearly all overall, dress goods, work apron or rough clothing industries. It is not deemed advisable to consider the installation of a shirt factory due to the fact that such a factory has just been opened at the state penitentiary, according to board members.

Canterbury Bells
Deep as the purple stain which came from Tyre, Shaped as the cup Eurydice had sipped Before she slept among the violets, Unmindful that their petals veiled a snake

Whose forked tongue was a lightning in the blooms; Ere finding that pale bloom which was her breast! Silent—ye chime for me, O purple bells.

For who can swear that silence, has no sound, When steadily there strikes within the heart Those silver notes that are remembered long—
—Cartoons Magazine.

REMEMBER to ask your grocer for Calumet Baking Powder and be sure that you get it—the Indian Head on the orange label.

Then forget about bake day failures. For you will never have any. Calumet always produces the sweetest and most palatable foods.

It never varies in quality—And now remember, you always use less than of most other brands because it possesses greater leavening strength.

Now Remember—
Always Use

CALUMET
BAKING POWDER

There is no waste. If a recipe calls for one egg—two cups of flour—half a cup of milk—that's all you use. You never have to re-bake.

Calumet is absolutely sure. In any baking—any time, whether the can has just been opened or whether it is the last spoonful.

Contains only such ingredients as have been officially approved by U. S. Food Authorities—and is the product of the largest, most modern and sanitary Baking Powder Factories in existence.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet
Columbia
Muffin
Recipe

4 cups of sifted flour, 4 level teaspoons Calumet Baking Powder, 1 tablespoon sugar, 1 teaspoon salt, 2 eggs, 2 cups sweet milk. Then mix in the regular way.

KENTUCKY GIRL WRITES LETTER

How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Sunnyside, Ky. — "I suffered for more than two years with my back and nervousness, and was not able to help my mother do the housework. I took treatment from two doctors and they did not do me any good. Mothersaw Lydia E. Pinkham's Vegetable Compound advertised in the paper and I took about ten bottles. It has done me a great deal of good. I weigh 138 pounds and am in good health. I will gladly recommend Vegetable Compound to anyone who suffers with the troubles which I had, and you are welcome to publish my testimonial." — VEMER HENDRICK, Route Sunnyside, Ky.

To many American girls life is often a heavy drag in consequence of illness, and every mother should heed the first manifestations, such as cramps, backaches, headaches and nervousness as Mrs. Hendrick did for her daughter, and give Lydia E. Pinkham's Vegetable Compound a fair trial. For over forty years this old-fashioned root and herb medicine has been relieving women of just such troubles.

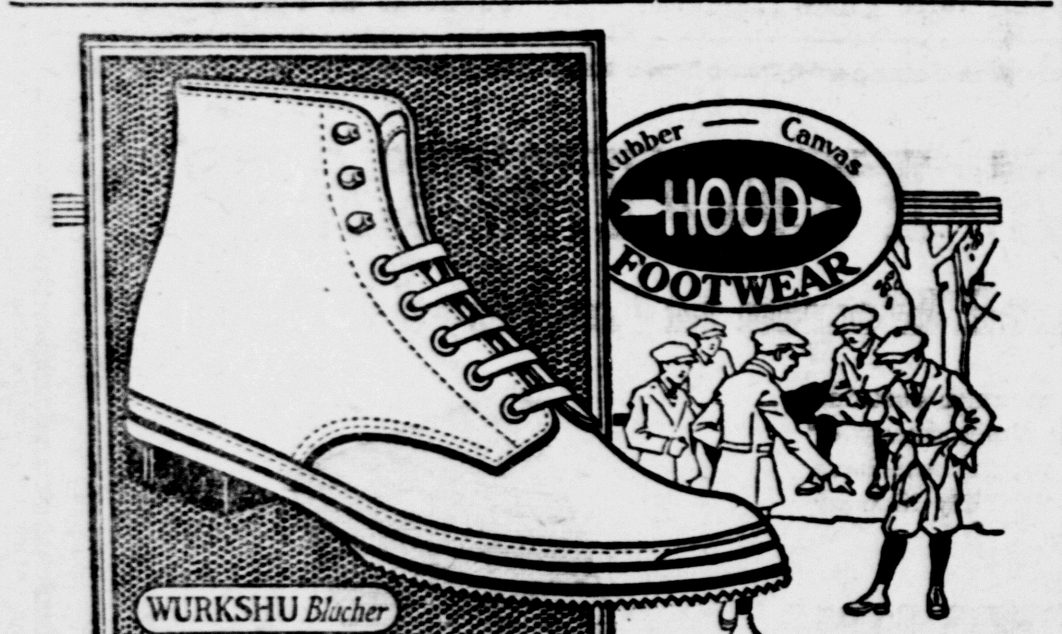

Write Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health.

HOBBART—An entertainment committee has been appointed to complete plans for a Fourth of July celebration to be held here. It will include ball games, racing and similar amusements. The celebration will be free.

M. Z. THOMPSON TO BE EAST CENTRAL'S COACH

President Linscheid of the East Central State Normal school announces that he has recommended M. Z. Thompson, Principal of the High School at Holdenville, as Head of the Department of Physical Science and Athletics at the East Central State Normal school. Mr. Thompson's educational and athletic record may be summarized as follows:

Graduate of Phillips University with a Bachelor of Arts Degree, and has completed over half of his Master's work in the University of Chicago. Mr. Thompson is a very successful teacher, having filled the position of Principal of the High School at Watonga and at Holdenville, in both of which positions he made an enviable record as a leader of young people.

During his attendance at Phillips University Mr. Thompson participated in every form of college athletics—making letters in football, basketball, track and basket ball. He has the distinction of receiving thirteen letters from Phillips University, a record which no other athlete in that institution has ever equalled.

During the first two years of his athletic experience he was under the direction of William H. Cramblett, a Yale athlete, now Dean of Bethany college. During the last two years of his athletic experience he played on the teams coached by Johnny Maulbetch, famous Michigan all-American football man, and now coach at the A. & M. college at Stillwater.

In addition to his practical experience in every form of athletics, Mr. Thompson has taken courses in the Theory of Coaching under Stagg of the University of Chicago. Since leaving Phillips University, Mr. Thompson has coached two championship girls' basketball teams, and some excellent high school football and baseball organizations.

Mr. Thompson is a married man, and takes an active interest in church and Sunday school work. At the present time he is employed as a special instructor in the Normal school for the summer session. He will begin work at the Normal as a permanent member of the faculty in September. Mr. Thompson will in all probability prove a very capable teacher in science, and an excellent athletic coach. The Normal school deems itself fortunate to be able to secure his services.

At the last meeting of the State Board of Education Mr. Thompson was elected to a similar position in the Weatherford Normal, but he is so well pleased with the outlook at East Central, and with Ada as a town in which to live, that he has resigned his position at Weatherford to accept the one at Ada.

BRIDGE COLORADO FOR BIG ELECTRIC SCHEME

(By the Associated Press)

LOS ANGELES, June 28.—The "world's greatest electrical project" is the phrase used by some engineers in describing the plans of the Southern California Edison company for impounding the waters of the Colorado river and developing hydro-electric power on a huge scale for distribution over a wide area of the southwest.

Edwin O. Edgerton, special counsel for the corporation and formerly president of the California State Railroad Commission, stated the project ultimately would involve possibly \$800,000,000 or twice as much as was spent on the Panama Canal.

Applications for permission to impound the waters of the river have been accepted for filing from the company by the Federal Power Commission and the Arizona Water Commission. It is expected similar applications will be filed with corresponding commissions in other southwestern states.

Generations of a peak load of 4,350,000 horse power and an annual average load of 2,800,000 horsepower from four developments projects along the river will be possible, it is stated, if the stream flow is controlled by the first of the four—a 500-foot dam planned for the head of Glen Canyon, Ariz.

At that point, it is stated, the main dam would create a lake almost 200 miles long, extending backward from the dam, up the

nearly level basin of the Colorado to the mouth of the Fremont river. From this point, the river descends in 400 miles from 3300 feet above sea level to 500 feet above sea level a fall of 2800 feet. This 2800 feet of the dam itself, giving a gross head of 3300 feet for power development.

At the Glen Canyon dam, according to plans, a uniform flow of 18,000 second feet would pass thru turbines and thence through a power canal for fifty miles, to the mouth of the Little Colorado. This would give a net head of 800 feet and would generate 1,240,000 horsepower.

Belisle Sentenced on Charge of Bank Defraud at Morris

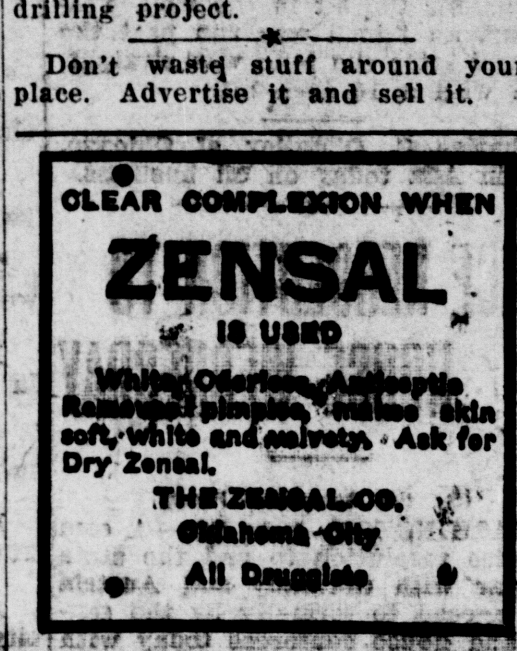

(By the Associated Press)

MUSKOGEE, June 27.—Rich Belisle, formerly cashier of the First National Bank of Morris, convicted a month ago in the United States district court in Muskogee in 20

out of 21 counts charging him with embezzling funds from the bank to the extent of \$110,000, was sentenced today by Judge Robert L. Williams to two years in the United State penitentiary at Leavenworth.

The court overruled a motion for a new trial. It is charged that he used the bank's money in an oil drilling project.

Get a 20-Year Income By Saving 9 Months

Our Plan of Customer-Ownership in DEEP-ROCK OIL Pays Investors 8% or More

THE Shaffer Oil and Refining Co.'s 8% 20-year Convertible Gold Notes (issued under a strict Trust Agreement, Continental and Commercial Bank, of Chicago, Trustee) are highly regarded by the users and friends of DEEP-ROCK Oils and Gasoline.

First—because people like the idea of Customer-Ownership—of making their investments direct in a large, successful organization with a fine record of success, justifying full confidence for even greater gains.

Second—because they know of the large profits made in the oil business and welcome an opportunity to go in with successful operators provided they can do so without the usual risk.

This is exactly the opportunity that a purchase of these Shaffer 20-year Gold Notes brings with it—

- 1st—An 8% yearly interest return, payable 4% twice a year.
- 2nd—The privilege of exchanging these notes for Shaffer preferred or common stock whenever you desire.

Oil Profits No Longer Limited to a Few

The time has passed when the profits in the oil business went only to a few capitalists. Far-seeing industrial leaders realize how much sounder it is to have the properties owned by the many people who use the products.

This new idea is called Customer-Ownership and its success has been proved in many great enterprises:

\$25,000,000 in Property

The Shaffer Oil and Refining Co. is not a new concern. In 1912 this organization drilled the discovery well in the world-famed Cushing Pool in Oklahoma. It already has more than \$25,000,000 in property and is a complete petroleum business.

We produce, refine, transport and market to consumers.

Our gross earnings in 1920 were over \$12,000,000. And this was an increase of nearly 25% over 1919. We plan to make the production and profits grow year after year. The money from the sale of these 8% Gold Notes is for developing more of our valuable holdings.

And the ever-increasing demand for petroleum products causes the oil business to reap large financial rewards when operated by men of integrity, ability and experience.

With the right to convert these notes into stock you have an opportunity to share in the stockholders' profits. Meanwhile you have a dependable income paying at least 8% a year.

9 Months to Pay

By saving only 33 cents a day anyone can possess a \$100 Shaffer Gold Note or as much more in proportion as you care to save.

Notes come in \$100, \$500 and \$1,000 denominations with interest coupons attached. Price the same whether you pay all cash, or 10% with order and 10% a month for the balance.

Very few partial payment plans you have ever heard about refund your money with 3% interest if you cannot complete your payments. This is exactly what we do.

Send the Coupon Today

Please bear in mind that this limited issue of Shaffer 8% Oil Notes is being offered to a large number of DEEP-ROCK customers and that all notes may soon be oversubscribed.

While we are desirous that you investigate fully, it is well to subscribe to the notes as early as possible.

Our representatives at our distributing stations will be glad to supply you with literature and complete information; meantime, write or mail the coupon for a free copy of the illustrated booklet "The Great Oil Properties Back of DEEP-ROCK." No obligation whatever; we welcome your interest.

\$25,000,000 in Property

Back of Your Investment

The Shaffer Oil and Refining Co. is a self-contained organization handling oil from its own wells—through the various refining processes—to the consumer through its own stations and those of the Home Oil Company, an allied concern.

Principal properties are located in Oklahoma—the leading oil producing center of the country. Other wells and holdings in Kansas, Arkansas, Louisiana, Texas and Montana.

461 oil wells now producing and 19 gas wells—12 additional wells in a large development program being drilled. 6 casing head gasoline plants producing 9,000 gallons of gasoline daily.

173 Distributing Stations

Including those of the Home Oil Company (allied).

8,284 acres of developed oil lands—209,000 acres in valuable holdings.

Complete refinery at Cushing, capacity 252,000 gallons daily, second largest complete refinery in Oklahoma.

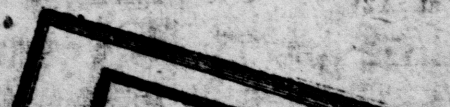

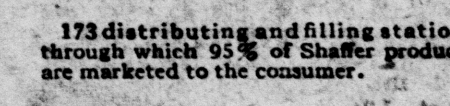

633 Tank Cars

633 tank cars and 200 miles of pipe and gathering lines owned and operated by the company, in addition to 27 steel storage tanks of 66,150,000-gallon capacity.

173 distributing and filling stations through which 95% of Shaffer products are marketed to the consumer.

Federal Reserve Bank of This District Sees Much Better Times Ahead

An outstanding feature of the situation in this agricultural district at the 1921 harvest season is that loans by the Federal Reserve Bank of Kansas City are less than one-half the total of November last when loans were at their highest peak, and marked reductions in loans by member and non-member banks have also been made during the same period. As a result of deflation, which have proceeded steadily and in orderly fashion, finances in this district are in better condition than for many months past. Ample currency and credit are available for harvesting and crop movements as well as for all legitimate requirements.

Improvement in the financial situation in this district is reflected by the weekly statements of the Federal Reserve Bank of Kansas City. On November 5, 1920, loans had reached the high mark of \$163,387,000 and such was the demand for currency and credit at that time that the bank was borrowing \$41,877,649 from other Federal Reserve banks to meet necessary requirements. In marked contrast from this state of highly inflated credits is the statement of the Federal Reserve Bank of Kansas City as of June 15, 1921, which shows a total of \$76,863,151 of loans a reduction of 53 per cent from the total on November 5, 1920, and not a dollar borrowed from other Federal Reserve Banks. Besides, the Federal Reserve Bank of Kansas City has in undistributed lending power more than \$59,000,000 of funds available for financing the 1921 harvest and for the movement of crops, live stock and other products of this district, whereas on November 5, 1920, and also on June 18, 1920 it is recalled that the Federal Reserve bank was borrowing heavily from outside banks to meet the actual needs of this district.

As a further indication of the progress towards a settling down to a basis of sound healthy activity, it is noted that Federal Reserve notes and Federal Reserve Bank notes in actual circulation on June 15, 1921, totaled \$92,954,285 as compared with \$125,968,425 on November 5, 1920 and \$113,690,905 on June 18, 1920. The ratio of total reserves to net demand deposit and Federal Reserve notes liabilities combined on June 15, 1921, was 59.1 per cent, which compares with a ratio of 39.4 per cent on November 5, 1920 and 40 per cent on June 18, 1920.

While loans through the Federal Reserve Bank have been reduced more than one-half, it is also noted that the banks of the district in recent months have busied themselves with reduction of loans. The combined statement of 82 selected member banks scattered over this district may be regarded as a sample of what others of the 4,750 banks, both member and non-member banks have accomplished. The statement as of June 8, 1921, shows that the loans and discounts (exclusive of rediscounts) and the investments of these 82 selected member banks totaled \$25,162,000 which compares with a total of \$595,720,000 on November 5 and \$610,895,000 on June 4, 1920. Demand deposits on which the reserves are computed have been reduced, the total as of June 8, 1921, being \$370,453,000 as against \$394,927,000 November 5, 1920, and \$419,752,000 as of June 4, 1920, were \$105,955,000 against \$99,029,000 the first week in November last and \$98,568,000 at the corresponding first June report in 1920.

The seasonal requirements of agriculture, live stock, all of the basic industries of this district and of business are now very large and are expected to continue so, but the financial situation is regarded as such that no apprehension need be felt as to an ample supply of currency and credit for all legitimate business. In fact, the process of readjustment of conditions toward what it is reasonably believed they should be, such progress has been made that the Federal Reserve Bank of Kansas City is now more liberally scrutinizing commercial paper, including motor car and jewelry paper which in the period of stress about this time last year was regarded as not so urgent as the movement of many million dollars of farm products. It is believed the time has arrived when high class eligible motor car paper supported by solvent financial statements may be considered on the same plane as any other commercial paper.

Oh Company Is Sued (By the Associated Press)

MIAMI, June 28.—John Cortois a teamster and five members of his family today filed suit in district court for claims aggregating \$117,000 against the Consumers Gas company, for injuries received by his wife and four children on the night of March 25, when escaping gas exploded in a storm dugout and injured some members of the family.

In the city last night with his illustrated lecture. Pictures were used to give a better effect to his lecture which consisted of rural school consolidation problems and their importance.

Supt. H. G. Faust of Shawnee is here for several days this week delivering a series of special lectures on school administration, psychology of the abnormal child, and kindred subjects. He has one of the largest school systems in the state under his supervision and his many years of experience is proving a great help to the interested students of the school.

Mrs. Ruth Carter, Normal registrar, is busy today checking up the applications for two year state certificates. She reports that at least 75 certificates will be awarded at the close of the summer term.

The McBrien party of rural specialists left Ada, high in their praise for the excellent treatment they received while here. Dr. McBrien stated that audiences at the Thursday and Friday sessions were the largest he had ever seen, considering the rain storm that was in progress both days.

Basketball games between several of the counties represented are being matched. A game between the Pontotoc and Seminole county teams was to be played Wednesday night but it probably will be postponed. Girls' teams are also becoming interested in playing this summer.

County club parties and other social functions have been indefinitely postponed on account of conflicting engagements. The rural conference and other events have caused the school to get behind with its work and everything is being done by the faculty and students to get caught up again, it is reported.

A school girl said at school today, "I got the shoe I have wanted." Another girl said, "how did it happen?" "Because Moser's has them in Brown and Black Satin." Moser's Department Store. 6-28-21

The Woodspruce

The wind flapped loose, the wind was still,
Shaken out dead from tree and hill;
I had walked on at the wind's will,
I sat now for the wind was still.

Between my knees, my forehead was
My lips drawn in, said not alas!
My hair was over in the grass,
My naked ear hears the day pass.

My eyes, wide open, had the run
Of some ten weeds to feed upon;
Among these few, out in the sun,
The woodspruce flowered, three cups in one.

From perfect grief there need not be
Wisdom or even memory;
One thing then learnt remains to me
The woodspruce has a cup of three.

—Dante Gabriel Rossetti

Club Entertainers

The "Double S" club of the East Central normal entertained its members informally Friday evening at the home of Mrs. M. F. Bronough with Miss Bernice Catron as hostess. The evening was delightfully spent in various ways and after having enjoyed themselves for some time a short business meeting was held.

Those present were Misses Jennie Lew Rogers, Alice Cameron, Grace Bertram, Eunice McNew, Leeta Burris, Mae Burdick and Bernice Catron and Messrs. William Riddle, Ed. Brents, Ulys Gaither, John Boyce McKeel, Hardy Roach, Sam Little and Jop Rogers.

Mathis-Hyden

Miss Delia Hyden and James Chester Mathis were quietly married last Thursday by Rev. W. H. Nettles in the presence of only a few friends. The wedding was a great surprise to their friends and was tried to be kept a secret for some time but leaked out. The happy couple will make their home here.

Miss Ocie Hawkins is spending the week-end here with relatives and friends.

Mr. and Mrs. John Harrison left last night for Oklahoma City to spend the week-end with friends.

Mrs. F. G. Hudson of Muskogee arrived in the city today to spend the week-end with relatives.

Mr. and Mrs. Harry Waggoner of Atoka was here for a short time yesterday visiting relatives.

Miss Kate Draper of Oklahoma City was in the city today to meet her music classes and visit friends.

Miss Mabel Emerson of Shawnee was visiting friends here over Friday and Saturday.

Mrs. Cannavan and baby left today for Stonehill to spend the week-end with relatives and friends.

Miss Jewell Parsons of Tulsa was the guest of friends in the city yesterday and today.

Mrs. Noble Johnson and son, Bonner, left last night for Lehigh where they will spend the week-end visiting relatives.

Miss Donaldson of the High school faculty, has returned from Sulphur where she acted as judge in a music contest yesterday.

Pontotoc County Will Not Make a Bid on Road Work

Pontotoc county will not bid in competition with private contractors on the federal aid road job on the Ada-Alton road.

This announcement was made by County Commissioners Brumley and Laughlin today. The commissioners had just returned from Oklahoma City, where they went yesterday with Secretary Walker of the Chamber of Commerce, to investigate certain phases of the road work, and place the county's bid for the job.

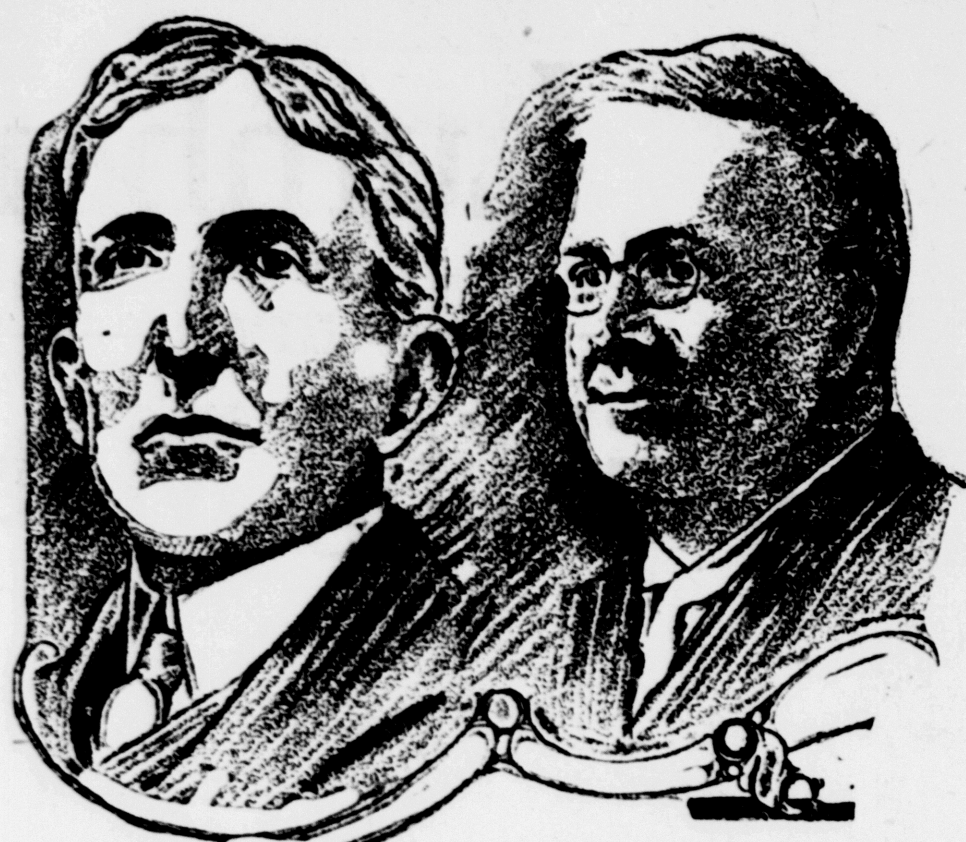

The commissioners announce that the state board of affairs has withdrawn the offer of convicts which the county had been promised for the road work and when this offer was withdrawn the commissioners gave up all hope of getting the contract and refused to make a bid.

A special grant had been made by the manager of the federal aid bureau granting to Pontotoc county the right to do the road work if their bid should be the one approved by the state highway department and the commissioners were of the opinion that they could use the convicts offered by the state board of affairs and save considerable money for the county and state in the work.

It is said the board of affairs was forced to withdraw the offer of the convicts, by the fact that the board is in the dark as to what the outcome of the present gloomy state of affairs in the state will be. Unless some arrangements are made before July 1 it is probable that all of the state's prisoners will have to be released, because of the lack of funds, and the board of affairs does not wish to encourage the county to depend on them to do a thing which they may not be able to carry out.

Bids will be received at the office of the state highway department up to 2:00 p. m. April 19, at which time the bids will be opened and the contract let to the successful bidder. The road work is to cost \$100,000, one half of which has been donated by the federal government and the remainder by Pontotoc county.

Judge and Prosecutor in Peonage Case

Judge John B. Hutcherson (left) and Solicitor General A. M. Band

JURY CONVICTS 1 GEORGIA PLANTER

(Continued from Page 1)

tained his innocence, although he admitted that he might be technically guilty of peonage.

COVINGTON, Ga., April 9.—The jury which convicted John S. Williams evidently based their finding mostly on the evidence of a black man—Clyde Manning, the negro whose confession led to the discovery of the bodies of William's victims.

That confession of Manning's was so startling that the men who heard it first found it impossible to believe. He said that for thirteen years he had lived on the Williams farm, where, he asserted, a number of negroes "brought out" from the city prisons of Macon and Atlanta had been kept in peonage by "Mister Johnny," as he called his employer and master. And then he described how he had aided four of those negroes and helped to drown six more, acting in each instance, he asserted, under "Mister Johnny's" orders and in fear of death if he disobeyed.

Negro Manning's Story. "I knocked four negroes in the head with an axe in one week," he declared to the grand jury, "and buried them in a pasture back of Mister Johnny's house. Why did I do it? Because the boss wanted to get rid of them negroes, and I knew that if I didn't make 'em disappear he'd kill me."

"Charlie Chisholm, another one of Mister Johnny's trusty negroes, put in a little work—he killed one suspicious negro by braining him with an axe. Then Mr. Williams got uneasy about Chisholm and made me get him. Me and Mr. Williams took him to the river one night and pitched him off the bridge after we weighted him down. Charlie begged hard, but Mr. Williams said: 'Let's throw him over and have it done with.'"

"I don't know how many negroes there are in the river, but I helped Mr. Williams to drown six, including Charlie Chisholm. We took the other five to the river at night, after getting them out of their houses, and chained 'em down with rocks and threw 'em in. Yes, sir, they all cried and begged. Some of 'em asked to be knocked in the head before being thrown in. But Mr. Williams wouldn't do it, and wouldn't let me do it. We just threw them off the bridge and rode on back to the plantation."

"You Must Kill Them."

Thus Manning accounted for the men he said had been drowned. Concerning the five others, he said: "Mr. Johnny called me up to his house after them detectives (federal agents investigating rumors of peonage) had left, and he said to me: 'Clyde, it won't do to let all of those niggers get back to Atlanta. They know too much on me and would send me to the chain gang. You must kill them.'"

"I thought about it and I knew he would kill me if I didn't do it, so when Mister Johnny took Johnny Williams (a negro by the same name as his) and me down into the pasture and he told me to kill Johnny I just did it because I knew I had to do it. The next day was Sunday and Mr. Williams sent Johnny Green and Willie Givens down in the pasture to fix the fence. Then Mr. Williams and me and Charlie Chisholm went down in the pasture, too, and Mr. Williams gave me the axe and told me to kill them. Charlie walked off with Willie so Willie wouldn't see me kill Johnny. After I had killed Johnny, Charlie and Willie came back, and I killed Willie. We left them on the ground and came back that Sunday night and buried them."

Told Him to Hit Big John. "One day Mr. Johnny came to me and Charlie Chisholm and told us to go take 'Big John' over on the Campbell place and dig a well. He told us when the well was deep enough to kill 'Big John.'"

"When we got the well about waist deep Mr. Johnny came up to me with the axe in his hand. Charlie Chisholm was in the hole and Mr. Johnny told him to get out and let 'Big John' dig some. Just as soon as 'Big John' got into the hole Mr. Johnny handed Charlie Chisholm the axe and told him to hit 'Big John.'"

"Charlie hit him and 'Big John' just fell over in the hole. Then Mr. Johnny told us to cover him up in a hurry."

"Fletcher Smith was killed by Mr. Johnny on the top of a high hill on the Campbell farm. He had told me he was going to kill him and sent me off to get the axe. As I was coming back I heard a gun and when I got there Fletcher was shot. He had been shot with a shotgun. Mr. Johnny and me buried him there."

"Of course, Mister, I'm sorry I

knocked all them boys in the head and helped Mr. Johnny do away with them others. But the boss told me if I didn't do as he said I would be the next dead negro round there, and I have always been mighty afraid of Mr. Johnny."

"He Threw Them In." "About them negroes, John Brown, 'Little Bit,' Harry Price, Lindsay Peterson, Willie Preston and Charlie Chisholm, that were put in the pond (pond is the local name for the waters of the Alcovy and Yellow rivers backed up by the big Macon dam), Mr. Johnny asked all of them except Charlie if they wanted to go home. They all wanted to go, so he said he would take them as soon as they had finished work. He would take them one or two at a time down to the river (distance of eight miles in one case and twelve in the other) and throw them in."

"As soon as we would get within two or three miles of the river Mr. Johnny would tell them he was going to kill them and would then tie them up with the chains. They didn't a one of them fight; all they did was to beg him not to do it. Harry Price begged to be allowed to jump into the river and Mr. Johnny let him do it. He untied his legs so he could walk and let him climb up on the bridge railing and jump off. Mr. Johnny then watched him float off down the river until he went under for the last time."

"Mr. Johnny went to Charlie Chisholm one afternoon and told him he wanted him to go over to Covington with us. When he got near the river he told Charlie he had been talking too much. 'I am going to throw you in there with the rest of them,' he said."

"Charlie denied saying anything about what we'd done, and begged Mr. Williams not to throw him in. But Mr. Williams wouldn't listen to him. He begged us to knock him in the head, but Mr. Williams wouldn't do it."

"I have worked for Mr. Johnny thirteen years and he has whipped me lots of times. He has whipped most all the negroes that worked for him."

CHEROKEES WOULD TAKE TWO CITIES (Continued from Page 1)

of the tribe, Levi Gritts, of Muskogee, announced today. Gritts' appointment of chief of the tribe is now pending before the Washington government. Gritts declared that the tribe had not employed Taylor, who is a Cherokee.

TULSA, April 9.—When shown a dispatch today to the effect that suit had been filed in the United States supreme court in behalf of the Cherokee Nation, to recover fourteen million acres of land, W.

Tate Brady, general chairman of the executive committee of the nation, characterized the action as "preposterous."

"The leaders of the Cherokees know nothing of such a claim," said Brady.

Judge Lindsay Case Continued. DENVER, April 9.—The case of Judge Lindsay, charged with contempt of court was continued today until next Saturday.

MAKING THE WORLD SAFE FOR THE UMPIRE

Carl Sawyer umpiring Pacific Coast league game in the cage.

At last the world has been made safe for the umpire as well as democracy. At least Mr. Umpa will be safe from ordinary attacks of players and large-sized missiles if this new device is adopted by organized ball. It was tried out in the Pacific Coast league the other day. Carl Sawyer, former Washington player, entered the cage to act as ump.

Wagering on Championship Bout July 2 is Light But the Late Hour Money Favors Champion By Odds

(By the Associated Press)

NEW YORK, June 28.—Wagering on the Dempsey-Carpentier bout for the world's heavyweight championship at Jersey City, July 2, is extremely light despite interest on two continents that promises to eclipse that evidenced in any previous title battle. Both men have numerous admirers, who, as yet, have failed to back their opinions with money. Stimulated wagering is expected on the eve of the bout with a probable inflow of currency from France.

According to figures at which some money has been wagered in Wall Street, Jack Dempsey seems likely to go into the ring on odds on favorite at 3 to 1. Although in past bouts for the title the champion, almost invariably has been the favorite, not since the Sullivan-Corbett battle has the title holder been so strongly favored in a bout of major worth. Sullivan was a 4 to 1 choice over "Gentleman Jim." Willard was a 2 to 1 favorite over Jack Dempsey when the challenger won at Toledo. Jim Jeffries entered the ring favored at 2 1-2 to 1 to beat Jack Johnson at Reno. Johnson, three weeks before he met Willard at Havana, was a 3 to 1 favorite but these figures shifted as the day of the bout approached and the negro climbed into the ring with the odds of only 6 to 5 in his favor. Jim Corbett was approximately a 2 to 1 shot over Bob Fitzsimmons when they met at Carson City.

The total amount of money was

estimated by a New York sporting man not to exceed \$75,000. A large part of this amount has been placed in so-called "freak" bets. Odds of 9 to 5 have been quoted that Dempsey will win by a knockout. Persons who back Carpentier to drop Dempsey for the count demand odds of 20 to 1. Odds of 10 to 1 have been asked by persons who would wager that Carpentier will not answer the bell for the third round.

Paris, almost hysterical in its enthusiasm for the French war hero, nevertheless is cautious when money is mentioned. Word received here states that Dempsey rules as 8 to 5 favorite on the boulevards, with little money placed.

Betting men believe that the lack of wagering is due largely to the fact that Carpentier's supporters desire unreasonable odds. Also, they declare that the international aspect of the contest, while making for the unusual interest which will draw the greatest "gate" in the rings history, is largely sentimental and not conducive to heavy wagering for that reason.

"The bout does not compare with the Jeffries-Johnson and the Willard-Dempsey battles at a corresponding period," one Broadway man declared. "There was at least \$2,000,000 wagered on the result of the Toledo battle and it is safe to say that as much or more changed hands at Reno when Jeffries lost to Johnson."

paign with a percentage of 525. At the time of the Tulsa convention last year the organization had 20 members. It rolls now include 105 former service men. Wade H. La-Poon of Chickasha is leading the campaign in the district.

The campaign which opened Monday will close on the night of July 4. It is the aim of the Legion to visit every home in the state in the seven working days and add 10,000 new members.

Read Galbraith's Speech

American Legion posts throughout the United States will read the last public speech of Col. F. W. Galbraith at their Fourth of July celebration. The speech a plea for the Citizens' Military Training Camp, was delivered by the late national commander a few hours before he met death in an automobile accident at Indianapolis. "I come to you," declared Mr. Galbraith, "as one of those thousands of Americans who went into the world war without the benefit of a training camp. We believe in preparing the young men of this country for citizenship. A part of this citizenship consists of being ready to defend our country in time of need." Copies of the speech are being forwarded to the posts from the national headquarters of the Legion at Indianapolis.

Post Boosting Georges

That Georges Carpentier, in his coming bout with Dempsey, will hit the latter so hard that he will see tri-colored stars for the remainder of his life, is the hope of the American Legion of San Bernardino County, Calif., which recently, at an interpost meeting, unanimously adopted a resolution supporting the French pugilist. Members of the American Legion Post of Palatka, Fla., have sent Carpentier a copy of a resolution which they recently adopted giving the latter the moral support of the post.

Seek New Members

An increase of 100 per cent in membership in the American Legion of the third district is the aim of posts in the southeastern part of the state during the membership drive which opened Monday, according to Dr. L. C. Kuykendall of McAlester, commander of the area. The district had an increase of 40 per cent over its membership at the time of the 1920 state convention at the opening of the campaign. It had four new posts during that time. The eighth district stands next in line of increase.

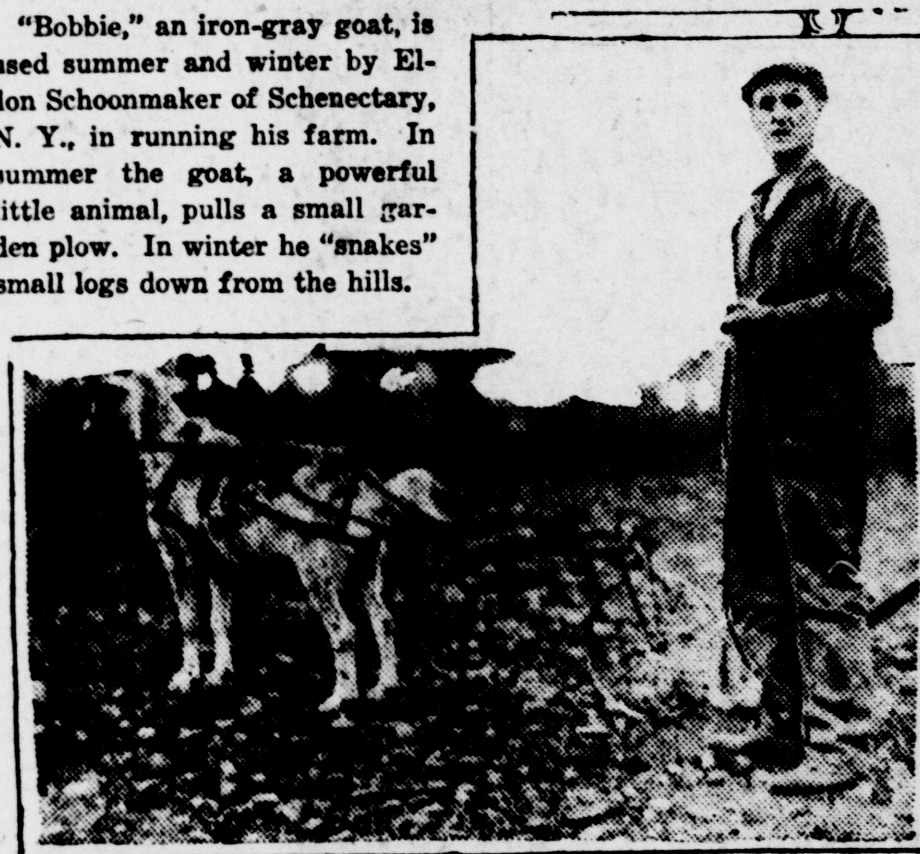

The fifth and first districts under the leadership of Frank King of Guthrie, and P. L. Long of Tulsa, have the hardest jobs of any districts in the state. Neither of the districts had as large a membership at the opening of the campaign as they had at the time of the convention last September. Special efforts are to be put forth by district and county commanders to enroll new members.

William T. Ponder of Mangum, commander of the seventh congressional district, has based quotas for posts in his district on the number of men who were called into service from the area surrounding each organization. His district already has one post with a membership of 100 per cent. Rocky post No. 116 has 45 members, which includes every man who served in the army now living within a radius of five miles of the town. Gotebo post No. 130 in Kiowa county showed an increase of 600 per cent over last year at the opening of the campaign. It is the banner post of the district.

Marlow post No. 9, shows the greatest increase in membership, among the 30 posts in the sixth district at the opening of the cam-

GOAT PULLS GARDEN PLOW FOR FARMER

"Bobbie," an iron-gray goat, is used summer and winter by Eldon Schoonmaker of Schenectady, N. Y., in running his farm. In summer the goat, a powerful little animal, pulls a small garden plow. In winter he "snakes" small logs down from the hills.
